

**KGS**  
Swiss Diamond Technology®

A black and white photograph of a worker wearing a heavy-duty work glove, operating a handheld angle grinder. The worker is using a large, circular grinding disc that is spinning rapidly, creating a blurred, multi-colored (red and white) effect. The disc is in contact with a concrete surface, and a significant amount of dust is being kicked up from the point of contact. The worker's hand is firmly gripping the handle of the tool. The background is a blurred concrete wall or floor.

# KGS Swiflex® Cobra 2.0

**GRINDING / CUTTING**

# KGS Swiflex® Cobra

GOLD LINE - Dry use

**KGS Swiflex® Cobra** Cutting and Grinding Discs are diamond electroplated. The disks feature an extremely unique KGS design. Cuts and grinds on both sides at the same time.

Very quick cutting and grinding in one step, without having to change the disc. Very fine cut with a smooth, high-quality finish
