

RED™ K835

DIAMOND CUTTING DISC

Break-out-free cutting, very smooth edges

Metal bond sintered, continuous rim with turboprofile, steel core with cooling holes, reinforced steel blade in flange area. Reinforced flange permits quiet, low-vibration and excellent cutting results. Special segment design for a quick, effortless, and deep cut. Optimal for dense, hard ceramic materials such as fine stoneware, and engineered stones like Dekton, Lapitec, etc.

GOLD LINE

Dry

- 10 mm height, very long service life
- For very precise and very thin cuts
