DIAMOND SANDPAPER

KGS Swiflex® CX ECO

SILVER LINE - Dry Use 

No need for large stacks of sandpaper! Save time, save money, improve your work efficiency.

DIAMOND SANDPAPER FOR STONES

KGS Swiflex® CX ECO has been specially developed to substitute sandpaper and provide economical, yet consistently efficient performance.

REPLACEMENT OF CONVENTIONAL SANDPAPER WITH FOLLOWING BENEFITS:

- Coarse grits are up to 2-4 times more aggressive than conventional abrasives
- Polishing results are superior to conventional abrasives with no discolouration of the stone surface
- Exceptional productivity with improved lifetime compared to conventional abrasives (coarse grits last 3-4 times longer, fine grits last up to 15 times longer)
- Fewer discs changes, better work efficiency
- Environmentally friendly - less resin dust of tool due to longer lifetime, less waste because significantly less discs are needed
- Faster working and less resin dust is beneficial for the life of the angle grinder

FEATURES:

- Can be used on both standard speed angle grinders (up to 6500 rpm) as well as high speed angle grinders (up to 11000 rpm).
- Available diameters: 100mm, 115mm, 125mm (Other sizes are available on request)
- Colour coded with QRS backing

AVAILABLE GRITS:

MACHINES: Angle grinder

WORKABLE MATERIAL: Marble
