RED™ K855 & K856
ANGLE GRINDER DRILLS

RED™ K855 & K856

PREMIUM - Dry use

HIGH PERFORMANCE VACUUM BRAZED DRILLS

Powerful vacuum brazed drills, suitable for ceramics composite and natural stone. The drills are provided with a lubricant inside to promote smooth drilling. These are available in Ø 6, 8, 10 and 12mm, the other larger sizes are provided with cooling holes. RED™ K855 drills, with with M14 connection are for use on angle grinders. RED™ K856 drills come with hexagonal shanks designed for use on hand drills.

- Long lifetime
- Lubricant for extra cooling
- High Performance
- M14 for angle grinders
- Hexagonal shanks for hand drills
